Subject: EPA follow-up to Magnaflow 208 responses
Date: Friday, September 1, 2017 10:47:01 AM

Hi John,

Thank you for reaching out after Magnaflow provided its response to our information request dated April 24, 2017. We have a few follow-up questions regarding the products identified in response to Request Nos. 1 and 2:

1. For each of the Combination/Dual Application Parts, please indicate:
 - a. Which MYs the target vehicles came with catalytic converters and years they did not;
 - b. Which MYs the vehicles were equipped with exhaust gas recirculation (EGR); and
 - c. Whether the OEM part numbers for the replaced exhaust components were the same for all of the MYs covered by the product kit.
2. For each of the Custom Exhaust Kits, please indicate whether the end-user would be able to remove the catalyst without any cutting or welding (i.e., can be bolt on).
3. For all vehicles equipped with EGR, indicate whether the components supplied by Magnaflow were equipped with a port to allow continued use of the EGR system.
4. The EPA has identified a few Magnaflow products on other retailers' websites that appear to be included in Magnaflow's response, but we would like to verify this. Please indicate the Magnaflow part number that corresponds to the products listed below:
 - a. Magnaflow Custom Turbo-Back Exhaust – Single Passenger Side Rear Exit – 98-02 RAM 2500HD/3500
 - b. Magnaflow Custom Turbo-Back Exhaust – Single Passenger Side Rear Exit – 99 – 03 Super Duty 7.3L
5. We noticed that there are no "cat-back" exhaust systems identified in response to Request Nos. 1 and 2. For the cat-back exhaust systems that Magnaflow sells for diesel vehicles, please confirm that those components do not enable customers or end-users to bypass or render inoperative other emissions controls (e.g., DPFs, SCRs).
6. In the response to Request No. 2(i) (the "Sold" tab in the excel spreadsheet entitled "EPA Information"), some of the quantities are in parentheses. What do the parentheses signal?

Please confirm that Magnaflow will provide this information and include an estimate as to when the information will be sent to us.

Let us know if you have any questions.

Best,
Janice
